

Partners in Policymaking®

A Leadership Training Program

for adults with disabilities and parents of young children with developmental disabilities

PARTNERS IN POLICYMAKING® is a leadership training program designed for parents of young children with developmental disabilities and adults with disabilities. The program teaches leadership skills, and the process of developing positive partnerships with elected officials and others who make policy decisions about services used by you and your family.

In 1987, the PARTNERS program was created by the Minnesota Governor's Council on Developmental Disabilities. Since that first year more than 750 individuals from throughout Minnesota have graduated from the program.

PARTNERS is about systems change – creating, working towards, and achieving a vision of shared values about people with disabilities. It is based on the belief that the most effective and enduring public policy decisions are made by the people who need and use services in partnership with elected officials and other policymakers. It is about becoming confident in yourself, competent in the knowledge and information you will receive, and comfortable in sharing the life experiences and expertise you bring to the program.

Participation in PARTNERS requires a commitment to:

- attend all eight weekend sessions
